RESTRICTION RESPONSE

COMMISSIONER FOR PATENTS

SIR:

In response to the Office Action dated June 23, 2006, Applicants provisionally elect, with traverse, Group I, Claims 1-34 and 44-50 for further examination on the merits in the present application.

Applicants respectfully traverse the Restriction Requirement because the computer program product of claims 35-43 instructs a computer to carry out the process of claims 1-34 and 44-50 to obtain the same information of claims 1-34 and 44-50, which is the composition of a dye product. Furthermore, the PTO has not carried forward its burden of proof to establish that searching and examining both of the noted sets of claims would be an undue burden.

Particularly, M.P.E.P. § 803 states:

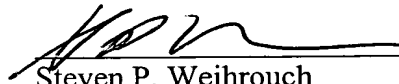

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions.

The claims of the present invention would appear to be part of an overlapping search area.

Accordingly, Applicants respectfully traverse the outstanding restriction requirement on the grounds that a search and examination of the entire application would not place a *serious* burden on the Examiner.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
